

JAPFA CORPORATE PROFILE

INTRODUCTION TO JAPFA

Japfa is a leading, pan-Asian, industrialized agri-food company dedicated to feeding emerging Asia with essential proteins.

Headquartered in Singapore, we employ over 32,000 people across an integrated network of modern farming, processing and distribution facilities in Indonesia, China, Vietnam, India and Myanmar. We specialize in producing quality dairy, protein staples (poultry, beef, swine and aquaculture) and packaged food that nourish millions of people.

INTRODUCTION TO JAPFA

For over **45 years**, we have been able to grow in scale and become leaders in multiple protein segments by embracing an integrated industrial approach to livestock and food production across the entire value chain.

We created standardized operations based on our strengths in livestock genetics, feed and farming technologies, biosecurity and animal welfare.

Our business model, linking three distinct stages of the value chain; is replicated across the product categories in our target markets where protein consumption is fuelled by economic and urban population expansion.

Given the growing affluence of our target middle- and lower-income consumer groups, we expect protein food consumption in these markets to rise. Well-poised to capitalize on this trend, we plan to forge ahead with our strategy of expanding across multiple protein segments in our five high-growth emerging Asian markets.

OUR NETWORK PRESENCE

Head quartered in Singapore, we operate a regional network of integrated farming, industrial processing and distribution facilities for Dairy, Animal Protein and Consumer Food in 5 growing country markets in emerging Asia.

BUSINESS CATEGORIES

We are a market leader across multiple classes of protein foods, with an emphasis on milk, poultry and beef, complemented by growing businesses in swine and aquaculture.
