COMPANY PROFILES

Established in 1973, PT Tunas Baru Lampung is a member of company of Sungai Budi Group which was founded in 1947 and is a pioneer in Indonesia's agricultural industry. Such involvement stems from a desire to assist in the country's development and to capitalize on Indonesia's competitive advantage in agriculture.

Today, the Sungai Budi Group is one of Indonesia's largest manufacturers and distributors of agricultural based consumer products.

Another member company of the Sungai Budi Group is the publicly listed PT Budi Acid Jaya Tbk, the largest and most fully integrated tapioca starch manufacturer in Indonesia.

Since PT Tunas Baru Lampung began its operations in Lampung in the early 1970s, we have grown to become one of the largest and lowest cost vegetable cooking oil producers.

PT. Tunas Baru Lampung was publicly listed in Jakarta Stock Exchange in 14 Feb 2000.

OUR VISION

“To be a fully integrated, eco friendly and low cost producer of Crude Palm Oil with vegetable cooking oil and other vegetable oil derivatives”.

COMMITMENT TO RESEARCH & DEVELOPMENT

Research and Development

At PT Tunas Baru Lampung we are committed to research and development. All our operating companies continually strive to develop techniques for the planting, upkeep and harvesting of oil palm. We work together with consultants from Malaysia who have extensive experience in the field of oil palm plantation.

Committed to Quality Control

Production processes at all PT Tunas Baru Lampung refineries and production facilities throughout Indonesia have strict controls to ensure that all products meet our consistently high standards. All our quality control staff have been specially trained to maintain our reputation in meeting international standards. All our processing facilities have a quality control laboratory to determine the quality of raw materials for the production process and the finished products prior to delivery.

OUR PRODUCTS

The Source of Cooking Oil

The source of our vegetable cooking oil is our plantation and at PT. Tunas Baru Lampung we currently control a land bank of more than 60,000 ha in Lampung, used mainly for oil palm plantation.

Oil palm is recognized as the highest oil producing crop per hectare of all oil yielding vegetables. This means that at any given production level, oil palm requires a smaller plantation area than any other oil producing crop.
